POSTER DESIGN

- It is mandatory to indicate your new abstract number in the upper right corner of the poster.
- The title of your poster should be at the top, in large letters to get the viewer's attention.
- Posters should then display the abstract number, authors, institutions of origin and contact details (contact details optional).
- Your goal is to convey a clear message and support it with a compelling combination of images and short blocks of text.
- All text on the objectives, methods, results, and conclusions needs to be kept brief.
- Every element, including graphs and tables must be easily readable from 2 metres.
- Consider how best to use colour, photos, charts, and pictures to enhance the information.
